Chairman's Statement

On behalf of the Board of Directors (the "**Board**"), I am pleased to present the audited consolidated financial results of Kenford Group Holdings Limited (the "**Company**") and its subsidiaries (collectively the "**Group**") for the year ended 31 March 2016.

The business environment for the financial year of 2015/2016 (the "**Financial Year**") has remained challenging for many electrical appliance manufacturers. The decrease of 10.6% in the sales revenue of the Group compared to last year was mainly due to the decrease in orders from the European and Asian markets caused by their struggling economies.

Many changing factors in Mainland China, such as the labour shortage, soaring production costs and the Government's policy adjustments, have made even maintaining the Group's business at a comparable level to last year an uphill task. Under this operating pressure, the Group has promoted innovative management by improving human resources controls thereby also boosting its operational efficiency and positively affecting the Group's overall profitability.

For the financial year ended 31 March 2016, the Group's consolidated revenue was HK\$522,851,000 (2015: HK\$585,027,000). The Group's net loss was HK\$22,537,000 (2015: net profit HK\$793,000). Our cash and bank deposits as at the end of this financial year were HK\$104,003,000 (2015: HK\$99,444,000). Also, the low gearing ratio of 13.5% as at 31 March 2016 and the positive cash balances clearly indicated that adequate financial resources remain available for the Group to expand its production capacity in the coming years.

The Board has resolved not to declare the payment of a final dividend for the year.

During the financial year, the Group has invested HK\$15,441,000 in upgrading manufacturing equipment and facilities to improve production efficiency as part of its emphasis on cost rationalisation. The Group expects to maintain the level of this investment to better prepare to capture future growth opportunities.

The coming year of 2016/2017 will be full of challenges. We believe China's economic growth will probably continue to slide and struggle for momentum, while the economies in Europe and Asia would still be far from a full recovery. Under these conditions, the Group shall strive to maintain a healthy financial and liquidity position.

Moving forward, our veteran management team will focus on formulating business strategies and continue to leverage our strong internal research and development capabilities to create innovative products with strong value-added features that can boost our margins. At the same time, the Group will continue to implement stringent cost control measures to offset rising operating cost pressures. The strategic focus of the Group in developing lifestyle hair care products superior to traditional electrical appliances and fashion and lifestyle brands will remain unchanged.

On behalf of the Board, I would like to extend my sincere gratitude to the entire workforce for their diligence and their steadfast commitment during the year. I would further like to thank our shareholders for their confidence in the Group, our customers worldwide for their trust and support of our products and services, as well as our bankers and business partners for their ongoing support.

By Order of the Board

Lam Wai Ming

Chairman

Hong Kong, 29 June 2016

COMPANY PROFILE

Kenford Group Holdings Limited and its subsidiaries (the “**Group**”) were founded in 1984 and the Group has been listed on the Hong Kong Stock Exchange since 2005. The Group is principally engaged in the design, manufacture and sale of electrical haircare products, electrical healthcare products and other small electrical household appliances. Its headquarters are in Hong Kong with a manufacturing base in Dongguan, PRC.

The Group’s products are mainly sold on Original Design Manufacturing (ODM), Original Equipment Manufacturing (OEM) and Original Brand Manufacturing (OBM) bases. Its customers are principally leading brand owners and importers who then resell the products to beauty supply retailers and wholesalers, chain stores, mass merchandisers, warehouse clubs, catalogues and grocery stores.

Today’s consumers are increasingly concerned about caring for and grooming their hair in addition to styling. They are looking for hair dryers that can promise softer, shinier and healthier hair and hair straighteners that can leave the hair straight, shiny and smooth after treatment. The Group can meet their demands as most of our products boast the following features: ionisation, ceramic coating, self-heat regulation, convenient cool-shot button (to quickly cool hair and hold a hair style), a diffusing and removable air filter (to prevent overheating and breakdown). Besides, they are light in weight for easier control when in operation.

As for international marketing, the Group annually participates in the Hong Kong Electronics Fair Autumn Edition every October to increase brand awareness and promote products.

FINANCIAL REVIEW

During the year ended 31 March 2016, the Group continued to face the challenges of increased labour costs and a shortage of skilled labour. Due to weakened global market demand, the Group recorded a decrease of revenue and gross profit. The Group’s revenue was HK\$522,851,000 (2015: HK\$585,027,000), a decline of 10.6% from the previous financial year attributable to the decrease of demand from both the European and Asian markets which outweighed the recovery of demand from the American market.

During the financial year 2016, revenue attributable to the sales of electrical haircare products accounted for approximately HK\$514,355,000 (2015: HK\$576,819,000), representing about 98.4% (2015: 98.6%) of the revenue of the Group. The remaining HK\$8,496,000 (2015: HK\$8,208,000), representing about 1.6% (2015: 1.4%), was for the sales of electrical healthcare products and other small household electrical appliances.

The Group reported a gross profit of HK\$67,186,000 (2015: HK\$80,883,000) during the year, representing a gross profit margin of 12.8% (2015: 13.8%) a decrease of 1.0% primarily due to a decrease in revenue which was offset by stable raw material prices and ongoing cost reduction initiatives.

During the financial year 2016, the Group recognised an impairment loss amounted to HK\$10,001,000 in respect of the carrying amount of certain plant and equipment for the production and sales of products to various oversea customers. Based on the budgeted gross margin and direct operating expenses analysis estimated by the management, these customers will continue making loss in near future. As a result, a full impairment of the respective carrying amount is recognised in profit or loss. This item did not affect the cash flow of the Group for the financial year under review.

Management Discussion and Analysis

The Group recognised an unrealised loss, net of realised gain, arising from changes in fair value of equity securities held for trading of HK\$2,732,000 (2015: Nil). As a result of the surge in market volatility during the year, fair value of these securities dropped significantly. Accordingly, the Group had to account for this drop in fair value in profit or loss. This item did not affect the cash flow of the Group for the financial year under review.

In addition to the above factors, the loss on disposal of machinery of approximately HK\$1,000,000 and the loss on exchange difference of approximately HK\$1,000,000 as a result of the accumulated effect of the normal conversion of foreign currency to base currency during the reporting period, loss before taxation for the year ended 31 March 2016 was HK\$21,525,000 (2015: profit before taxation of HK\$2,684,000), representing a decrease of 902% from the previous financial year. The percentages of distribution costs and administrative expenses to revenue were about 1.4% and 13.7% respectively compared to 1.6% and 12.9% in the last financial year. In dollars term, administrative expenses was HK\$71,613,000, a decrease of 4.9% compared to HK\$75,291,000 during the corresponding period last year. Such decrease was caused by declining staff salaries and PRC government levies.

Loss for the year was HK\$22,537,000, compared to a profit of HK\$793,000 for the financial year ended 31 March 2015, representing a decrease of 2,942%.

Basic loss per share amounted to HK5.069 cents, a decrease of 2,901% compared to earnings of HK0.181 cents during the corresponding period last year.

The Board of Directors (“**The Board**”) has resolved not to declare payment of a final dividend (2015: Nil) for the financial year ended 31 March 2016. There was no interim dividend declared (2015: Nil) thus there were no dividends declared for the whole year (2015: Nil).

BUSINESS REVIEW

Market Review

During the financial year, the Company has faced strong pressure from customers requesting price reductions as they believed the Renminbi depreciation of 3% in August 2015 would lower the Company’s production cost, thus we should pass all the savings on to them. In addition, as most of the Company’s customers are from European countries, the significant devaluation of the Euro against the United States dollar presents a significant cost burden as they need to pay us in that currency for all the goods they purchase from us. They also cite this as another reason for a price reduction. Moreover, the North America market has shown improvement caused by our launching of new innovative products for our American customers while the other geographic markets showed varying levels of decline in demand. In the coming year, we believe that should further crises not materialise and economic conditions continue to improve, global growth could be expected but only at a relatively slow rate.

During the current financial year, the positive 18.4% growth in demand from the American market has increased the revenue contribution from that geography to 12.1% from 9.1% over the last corresponding financial year. The revenue contribution from Australia as a percentage of revenue has also increased slightly to 1.3% during the current financial year from 0.9% in the preceding financial year. Unfortunately, a less-than-expected revenue due to the struggling economy in Europe and the decrease in promotion orders from Thailand has dampened the Group’s overall sales performance. This shift has decreased the revenue contribution from the European market to 49.4% during this financial year from 53.6% in the preceding financial year. Despite the negative 7.0% drop in demand from the Asia market, the revenue contribution has actually increased slightly to 36.7% from 35.3% over the previous financial year as the drop was less than the overall decline in the Group’s revenue. At the same time, the revenue contribution percentage from Africa has dropped to 0.5% during this financial year from 1.1% in the preceding financial year. The Group believes that the European and Asian markets will remain the major geographic revenue contributors in the coming years.

Testimony to the Group's quality is that most of its customers are renowned global brands. Our five major customers have accounted for approximately 83.1% and 86.0% of the Group's total revenue in the current financial year and the previous financial year, respectively.

Operations Review

Mainland China remains the Group's major production center. Similar to other manufacturers in Mainland China, the Group has faced a series of operating challenges, such as the slow recovery in export markets, declining growth in Mainland China's domestic markets, the difficulties in recruiting production line operators and increased operations costs and general expenses. The monthly statutory minimum wage in Dongguan has risen from RMB1,310 to RMB1,510 effective from May 2015, an increase of approximately 15%. But amidst the macroeconomic uncertainty, prices of metal commodities, such as copper and lead are stabilising, which could provide some relief to the cost pressures on the Group. Though the Group's gross profit margin has been adversely affected by most of these factors, it has been very difficult to pass all of the higher expenses on to customers.

The labour shortage remains a serious issue in China, leading to significant increases in labour costs which have inevitably placed a heavier burden on the whole manufacturing process and operational efficiency. The Group is strategically coping with this issue, by transforming itself from a labour-intensive operation into a more capital-intensive enterprise. To implement this transformation, the Group has continued to devote more resources to upgrade and automate its manufacturing. Towards this end, it has strived to improve the production efficiency and eliminate waste and, ultimately, reduce costs.

The immediate priority of the Group is to monitor the on-going initiatives to both improve operational efficiency and invest in people and processes to advance its long-term development.

LIQUIDITY AND FINANCIAL RESOURCES

As at 31 March 2016, the Group had approximately HK\$104,003,000 cash and bank deposits (2015: HK\$99,444,000). The Group's net current assets were approximately HK\$180,119,000 (2015: HK\$184,096,000). The current ratio of the Group as at 31 March 2016 was maintained at 2.3 (2015: 2.3) and the net cash-to-equity ratio (cash and bank deposits less the interest bearing borrowings over total equity) was 16.4% (2015: 14.7%).

As at 31 March 2016, the Group had aggregate banking facilities of HK\$160,400,000 (2015: HK\$150,400,000), of which HK\$46,998,000 (2015: HK\$44,476,000) was used. The borrowings comprised bank loan facilities of HK\$11,533,000 (2015: HK\$Nil) and trade finance facilities of HK\$35,465,000 (2015: HK\$44,476,000). The maturity profile of the Group's borrowings falling due within one year amounted to HK\$46,998,000 (2015: HK\$44,476,000). The bank borrowings carry interest at rates ranging from HIBOR/LIBOR plus 2% to 2.5% (2015: 2% to 2.25%) or 1% (2015: 1%) below the Prime Rate.

The Group has maintained a healthy liquidity position and has accumulated sufficient financial resources to meet working capital and capital expenditure requirements.

CHARGES ON ASSETS

The Group had no charges on assets as at 31 March 2016 (2015: Nil).

Management Discussion and Analysis

FOREIGN EXCHANGE EXPOSURE

The Group's financial statements are denominated in Hong Kong dollars. The Group conducts its business transactions mainly in Hong Kong dollars, United States dollars and Renminbi. As the Hong Kong dollar remains pegged to the United States dollar, there is no material exchange risk in this respect. To manage the appreciation of the Renminbi, the Group has successfully generated revenue in Mainland China to hedge Renminbi receipts and Renminbi payments on an ongoing basis. All of the Group's bank loan facilities have been denominated in Hong Kong dollars and carried interest at floating rates.

EMPLOYMENT AND REMUNERATION POLICIES

As at 31 March 2016, the Group employed 42 staff (2015: 49) in Hong Kong and a total work force of approximately 1,573 (2015: 1,808) inclusive of all its staff and workers in China. The Group's remuneration policy is built on the principle of equitable packages to employees, incentive-based where applicable, with performance-oriented and market-competitive remuneration. Remuneration packages are normally reviewed on a regular basis. Apart from salary payments, other staff benefits include share option schemes, performance-based bonuses, provident fund contributions and medical insurance coverage.

DIVIDENDS

The directors have resolved not to declare the payment of a final dividend in respect of the year ended 31 March 2016.

PROSPECTS

The Group expects to face new challenges in the year 2016 as the minimum wage is expected to further increase, concurrent with a persistent shortage of skilled labour in China, the climbing taxes and fees of the Mainland China government, the continuous increasing of manufacturing costs, the shorter product life cycles of consumer electronic products and volatile capital markets and currency fluctuations. At the same time, the visibility of sales orders received is comparatively low which presents difficulties in resources planning.

Despite the anticipated unfavourable macroeconomic environment for the ODM manufacturing sector, the Group continues to invest in new technology providing the ability to roll out new and innovative products, enhance product diversification, automate manufacturing and allocate considerably more resources to developing higher margin innovative products.

As one of the key global haircare product manufacturers, the Group will continue to set its strategic direction aimed at reinforcing its position as a major ODM supplier to the world's leading brand owners. Our strength in advanced and innovative product design and development should drive sales growth momentum in the years to come. Moreover, our bolstered R&D capabilities will provide a solid platform for the Group to further expand into the haircare manufacturing sector, which is currently undergoing consolidation, as the global economy revives in the near future.

The board of directors (the “**Board**”) of Kenford Group Holdings Limited (the “**Company**”) herein present the annual report and the audited financial statements (the “**Financial Statements**”) of the Company and its subsidiaries (collectively, the “**Group**”) for the year ended 31 March 2016.

SHARE OPTION SCHEME

On 27 May 2005, the Company adopted a share option scheme (“**2005 Share Option Scheme**”) which was matured on 26 May 2015. Pursuant to a resolution passed on 6 August 2015, the Company adopted a new Share Option Scheme (“**2015 Share Option Scheme**”) which will remain in force for a period of ten (10) years.

The following is the summary of the principal terms of the Share Option Scheme:

(a) Purpose

The purpose of the Share Option Scheme is to enable the Company to grant Options to Eligible Participants as incentives or rewards for their contribution to the growth of the Group and to provide the Group with a more flexible means to reward, remunerate, compensate and/or provide benefits to the Eligible Participants.

(b) Who may join

Any person belonging to any of the following classes who, in the sole discretion of the Board, have contributed or will contribute to the growth and development of the Company are defined as Eligible Persons:

- (i) any full-time or part-time employee of the Company and/or any subsidiary of the Company;
- (ii) any director (including executive, non-executive and independent non-executive director) of the Company and/or any subsidiary of the Company; and
- (iii) any consultant or adviser (whether professional or otherwise and whether on an employment or contractual or honorary basis or otherwise and whether paid or unpaid), distributor, contractor, supplier, service provider, agent, customer and business partner of the Company and/or any subsidiary of the Company who, at the sole determination of the Board, have contributed or will contribute to the Company and/or any subsidiary of the Company.

The Board may invite any Eligible Person as the Board may in its absolute discretion select, having regard to each person’s qualifications, skills, background, experience, service records and/or contribution or potential value to the relevant member(s) of the Company, to take up a right granted to subscribe for Shares pursuant to the Share Option Scheme at a price calculated in accordance with paragraph (c) below and “Options” shall be construed accordingly (the “Options”).

SHARE OPTION SCHEME (Continued)

(c) Subscription price and acceptance period

The Subscription Price in respect of any Option shall, subject to any adjustments made pursuant to the terms of the Share Option Scheme, be a price determined by the Board and notified to each Grantee and shall be at least the highest of:

- (i) the closing price per Share as stated in the Stock Exchange's daily quotations sheet on the Offer Date (and if such Offer Date is not a business day, the business day immediately preceding such Offer Date);
- (ii) the average closing price per Share as stated in the Stock Exchange's daily quotations sheets for the five (5) business days immediately preceding the Offer Date; and
- (iii) the nominal value of a Share.

The Eligible Person must accept any such Offer notified to him or her within fourteen (14) days from the Offer Date, failing which it shall be deemed to have been rejected. Upon acceptance of the Offer, any Eligible Person who accepts an Offer in accordance with the terms of the Share Option Scheme (the "Grantee") shall pay HK\$1.00 to the Company as consideration for the grant.

(d) Maximum number of Shares available for subscription

- (1) The maximum aggregate number of Shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option schemes adopted by the Group which provide for the grant of options to acquire or subscribe for Shares must not exceed such number of Shares as shall represent 30% of the issued share capital of the Company from time to time. No Options may be granted under the Share Option Scheme if this will result in such limit being exceeded.
- (2) Subject to Paragraph d (1) above, the total number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Group must not, in aggregate, exceed 10% of the issued share capital of the Company as at the Adoption Date (the "**Scheme Mandate Limit**") unless Shareholders' approval has been obtained pursuant to Paragraphs d (3) or d (4) below. Any options lapsed in accordance with the terms of the Share Option Scheme or any other share option schemes of the Group shall not be counted for the purpose of calculating the Scheme Mandate Limit.
- (3) Subject to Paragraph d (1) above, the Board may seek approval by Shareholders in general meeting to renew the Scheme Mandate Limit and the Company must send a circular to the Shareholders containing the information required under Rule 17.02(2)(d) and the disclaimer required under Rule 17.02(4) of the Listing Rules. However, the total number of Shares which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other share option schemes of the Group in these circumstances must not exceed 10% of the issued share capital of the Company at the date of approval of the renewed limit (the "**renewed Scheme Mandate Limit**"). Options previously granted under the Share Option Scheme and any other share option schemes of the Group (including those outstanding, cancelled, lapsed in accordance with the Share Option Scheme or any other share option schemes of the Group and exercised options) will not be counted for the purpose of calculating the renewed Scheme Mandate Limit.

SHARE OPTION SCHEME (Continued)

(d) Maximum number of Shares available for subscription (Continued)

- (4) Subject to Paragraph d (1) above, the Board may seek separate Shareholders' approval in general meeting to grant options beyond the Scheme Mandate Limit or the renewed Scheme Mandate Limit as referred to in Paragraphs d (2) or d (3) above (as the case may be) provided that the options in excess of the Scheme Mandate Limit or the renewed Scheme Mandate Limit are granted only to the Eligible Participants specifically identified by the Company before such approval is sought and the Company must issue a circular to the Shareholders containing a generic description of the specified Eligible Participants who may be granted such options, the number and terms of the options to be granted, the purpose of granting options to such Eligible Participants with an explanation as to how the terms of the options serve such purpose, the information required under Rule 17.02(2)(d) and the disclaimer required under Rule 17.02(4) of the Listing Rules; and
- (5) if the Company conducts a share consolidation or subdivision after the Scheme Mandate Limit or renewed Scheme Mandate Limit has been approved in general meeting, the maximum number of Shares that may be issued upon exercise of all Options to be granted under the Share Option Scheme and any other share option schemes of the Group under the Scheme Mandate Limit or renewed Scheme Mandate Limit as a percentage of the total number of Shares at the date immediately before and after such consolidation or subdivision shall be the same.

(e) Maximum entitlement of each eligible participant

- (1) The total number of Shares issued and to be issued upon exercise of the Options granted to each Eligible Participant (including both exercised and outstanding Options under the Share Option Scheme) in any 12-month period must not exceed 1% of the issued share capital of the Company. Where any further grant of Options to an Eligible Participant would result in the total number of Shares issued and to be issued upon exercised of all Options granted and to be granted to such Eligible Participant (including exercised, cancelled and outstanding Options) in the 12-month period up to and including the date of such further grant representing in aggregate over 1% of the issued share capital of the Company as at the date of such further grant, such further grant shall be subject to the approval of the Shareholders at a general meeting with such Eligible Participant and his close associates (or his associates if the Eligible Participant is a connected person) abstaining from voting.
- (2) Any grant of Options to a director, chief executive or substantial shareholder of the Company or any of their respective associates must be approved by all of the independent non-executive Directors (excluding any independent non-executive Director who is the Grantee).
- (3) Where Options are proposed to be granted to a Substantial Shareholder or an independent non-executive Director or any of their respective associates, and the proposed grant of Options will result in the total number of Shares issued and to be issued upon exercise of all Options already granted and to be granted (including Options exercised, cancelled and outstanding) to such person in the 12-month period up to and including the date of such grant representing in aggregate over 0.1% of the issued share capital of the Company and having an aggregate value, based on the closing price of the Shares at the date of each grant, in excess of HK\$5,000,000, such grant of Options must be subject to the approval of the Shareholders taken on a poll at general meeting. In addition, the date of the Board meeting for proposing such grant should be taken as the date of grant for the purpose of calculating the Subscription Price only under paragraph c. The Grantee, his associates and all core connected persons of the Company must abstain from voting in such general meeting (except that any Grantee, his associate or core connected person may vote against the proposed grant provided that his intention to do so has been stated in the relevant circular to the Shareholders).

SHARE OPTION SCHEME (Continued)

(f) Term of the Share Option Scheme

The Share Option Scheme will remain in force for a period of ten (10) years commencing from 6 August 2015 (being the date of approval of the Share Option Scheme by the Shareholders), after which no further Options shall be granted but the Options which are granted during the life of the Share Option Scheme may continue to be exercisable in accordance with their terms of issue and the provisions of the Share Option Scheme shall in all other respects remain in full force and effect in respect thereof.

(g) Grant of Share Option

Particulars of the Share Option Scheme are set out in Note 29 to the Financial Statements.

Particulars of outstanding options under Share Option Scheme at the beginning and at the end of the financial year as at 31 March 2016 and the details of shares options granted exercised, cancelled and lapsed during the period were as follows:

CORPORATE GOVERNANCE PRACTICES

In the opinion of the board of directors (the “**Board**”) of Kenford Group Holdings Limited (the “**Company**”), the Company has complied with the applicable code provisions of the Corporate Governance Code and Corporate Governance Report (the “**CG Code**”) as set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “**Listing Rules**”) throughout the financial year ended 31 March 2016, except for the deviation from the CG Code A.2.1. This corporate governance report contains the detailed explanations on the Company’s practices in compliance with the applicable CG Code provisions and the considered reasons for such deviations.

To enhance accountability, transparency, independence, responsibility and fairness to the shareholders and stakeholders, the Company is dedicated to develop an appropriate framework of corporate governance for the Company and its subsidiaries (collectively, the “**Group**”), the chart of which is shown below. The Group will keep on reviewing and improving the corporate governance practices and procedures from time to time to ensure its commitment to the corporate governance standard and strive for the enhancement of shareholder value.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted procedures governing directors’ securities transactions in compliance with the Model Code for Securities Transactions by Directors of Listed Issuers (the “**Model Code**”) as set out in Appendix 10 of the Listing Rules. Upon enquiry by the Company, all the directors of the Company (the “**Directors**”) have confirmed that they fully complied with the required standards as set out in the Model Code throughout the financial year ended 31 March 2016.

DIRECTORS’ AND OFFICERS’ INDEMNITY

The Company continues to subscribe for an insurance policy to indemnify the Directors and senior executives from any losses, claims, damages, liabilities and expenses, including without limitation, any proceedings brought against them, arising from the performance of their duties pursuant to their appointment under their respective service agreements or letter of appointment entered into with the Company. The current policy has been renewed and shall be under constant review.

BOARD OF DIRECTORS

Board functions

The Board oversees the strategic development and determines objectives, strategy, policy and business plan of the Company. It monitors and controls the risk management operation and financial performance, reviews the corporate governance standard of the Company and sets appropriate policies pursuant to the Company's objectives.

Board composition

The Board of Directors of the Company comprised five Directors, of which two were Executive Directors, namely, Mr. Lam Wai Ming (Chairman) and Mr. Tam Chi Sang (Managing Director); and three were Independent Non-Executive Directors, namely, Mr. Chiu Fan Wa, Mr. Choi Hon Keung and Mr. Li Chi Chung. The biographical details of the existing Directors of the Company and the relationships among them as at the date of this report are set out in the "Directors' and Senior Management's Profile" section on pages 19 to 20 of this annual report. Save as disclosed in this annual report, none of the Directors has any business, financial, family or material relationship with each other and the Company.

The Board believes it is a balanced composition as each of the Directors has his own skills, expertise, professional qualifications and appropriate experiences to effectively oversee the business of the Group and the Directors give sufficient time and attention to the Group's affairs. It can effectively exercise independent judgment for the business activities of the Group to safeguard the interests of the shareholders and to improve standard in corporate governance to fulfill the demands of the shareholders and stakeholders of the Group.

During the financial year ended 31 March 2016, the Board complied at all times with the requirements of the Listing Rules relating to the appointment of Independent Non-Executive Directors representing at least one-third of the Board. One of the Independent Non-Executive Directors is a professional accountant, which is in compliance with the requirement of the Listing Rules. Each of the Independent Non-Executive Directors has presented an annual confirmation of independence to the Company in accordance with the requirement of the Listing Rules. The Company considered all of the Independent Non-Executive Directors to be independent.

Board delegation

The Board delegates the authorities to the board committees and the senior management of the Company to provide professional advice and monitor the daily operation of the Group on issues which require discussion, expertise knowledge and experience to make the decision. The three committees of the Board, namely, Remuneration Committee, Nomination Committee and Audit Committee are responsible for making recommendation on the specified matters in line with the terms of reference adopted by the Board set out separately. The senior management is responsible for supervision on the daily operation of the Group by functions.

BOARD OF DIRECTORS (Continued)

Note: There were four (4) Board Meetings held during the financial year ended 31 March 2016, all with formal notice and agenda.

Code Provision A.1.1 stipulates that the Board should meet regularly and Board meetings should be held at least four times a year at approximately quarterly intervals. There were in total 4 Board meetings held during the financial year ended 31 March 2016. The Board believes that the fairness and effectiveness for the decision making on the business needs are adequately ensured. In view of good corporate governance practices, the Board will use its endeavors to meet regularly and hold at least four regular Board meetings in the forthcoming years.

The notices were given at least 14 days in advance for each of the regular Board meeting to all the Directors so that they could have an opportunity to attend the same in person during the year. On ad hoc basis, the Executive Directors met together upon reasonable notices or by agreement of the Executive Directors to waive the notice of the meetings to discuss the matters as required by business needs. In respect of regular Board meetings, and so far as practicable, an agenda and accompanying board papers were sent in full to all Directors in a timely manner at least 3 days before the intended dates of Board meetings.

The company secretary of the Company attended all regular board meetings to advise on corporate governance and statutory compliance when necessary. In addition, the Company has maintained a procedure for Directors to seek independent professional advice in appropriate circumstances. Minutes of Board meetings and meetings of Board committees are kept by a duly appointed secretary of the meetings and such minutes would be inspected at any reasonable time on reasonable notice by any Director.

Minutes of Board meetings and Board committees meetings had recorded in sufficient details the matters considered by the Board and decisions reached, including any concerns raised by Directors or the representatives of the relevant parties or dissenting views expressed. Draft and final versions of minutes of Board meetings had been sent to all Directors and the representatives of the relevant parties involved in the meetings through electronic means for their comments and records respectively, in both cases within a reasonable time after the meetings held.

Corporate Governance Report

BOARD OF DIRECTORS (Continued)

Corporate Governance Functions

The Board is responsible for performing the corporate governance duties including:

1. to develop and review the Company's policies and practices on corporate governance;
2. to review and monitor the training and continuous professional development of directors and senior management;
3. to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements;

REMUNERATION COMMITTEE (Continued)

Remuneration Committee meetings

During the financial year ended 31 March 2016, the Remuneration Committee had met two times to discuss the following matters:

- to review and give comment to the overall remuneration policy and remuneration packages of the Group;
- to review and give comment to the basic salary of the Executive Directors and senior management of the Group;
- to review and give comment to the performance bonus of the Executive Directors of the Company;
- to note the fact that no compensation had been paid to the Executive Directors and senior management of the Group in relation to their resignation, if any; and
- to recommend the remuneration packages of the Executive Directors and senior management of the Group for the financial year ended 31 March 2016 prior to recommending them to the Board for determination.

The details of the number of the Remuneration Committee meetings held during the financial year ended 31 March 2016 and the relevant record of individual attendance of the members of the Remuneration Committee, on a named basis, are shown in the table under the heading “Board, Board committees and general meetings” on page 23 of this corporate governance report.

The Directors are remunerated with reference to their respective duties and responsibilities with the Company, the Company’s performance and current market situation. Details of emoluments of the Directors from the Group for the year are as disclosed in Note 13 to the Financial Statements.

NOMINATION COMMITTEE

Nomination Committee functions

The nomination committee of the Company (the “**Nomination Committee**”) was established to formulate nomination policy for consideration of the Board and to implement the nomination policy laid down by the Board. It has adopted the terms of reference, which are in line with the CG Code under Appendix 14 of the Listing Rules.

As a result of the establishment and the adoption of the written terms of reference of the Nomination Committee, it has been developed a formal, consistent and transparent procedure for the appointment of new Directors to the Board. There would be plans in place for orderly succession for appointments to the Board. All Directors would be subject to re-election at regular intervals.

A proposal for the appointment of a new Director will be considered and reviewed by the Nomination Committee. The Nomination Committee will consider the skills and expertise of the candidates as well as personal ethics, integrity and the willingness to commit time to the affairs of the Group. All candidates must be able to meet the standards set out in the Listing Rules. A candidate who is to be appointed as an Independent Non-Executive Directors should also meet the independence criteria set out in Rule 3.13 of the Listing Rules.

NOMINATION COMMITTEE (Continued)

Nomination Committee composition

The terms of reference of the Nomination Committee were amended in August 2011 to the effect that the Nomination Committee shall include three Independent Non-executive Directors from time to time, namely, Mr. Chiu Fan Wa, Mr. Choi Hon Keung and Mr. Li Chi Chung. Mr. Chiu Fan Wa was appointed as the chairman of the Nomination Committee.

INTERNAL AUDIT

The Company has set up an internal audit department since February 2008. The Audit Committee has met with the internal auditor and discussed with the Board about the internal control report. The Board also through the Audit Committee conducted a review of the effectiveness of the systems of internal control and risk management of the Group which cover all material controls, including strategic, financial, operational and compliance controls. The Audit Committee considers the systems effective and adequate.

The Company has engaged a qualified accountant with appropriate working experiences in the Finance & Accounting Department of the Group. The Board was also satisfied with the adequacy of resources, staff qualifications and experiences, training programmes and budget of the Company's accounting, internal audit and financial reporting functions.

The internal audit department's primary responsibilities include:

1. Strategic audit includes assessing the threats and opportunities that influence the Company's development. The Company's business environment is affected by economic and political conditions globally.
2. Financial audit includes ensuring the maintenance of proper accounting records for the provision of reliable financial information for internal use as well as for publication, ensuring compliance with relevant legislation and regulations, and implementing credit risk management. The Directors are responsible for overseeing the preparation of accounts for the financial year to ensure such accounts give a true and fair view of the state of affairs of the Group. The Company's accounts are prepared in accordance with all relevant statutory requirements and applicable accounting standards. As at the date of this corporate governance report, the Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern required to be disclosed.
3. Operational audit includes: (i) maintaining and ensuring compliance with ISO9001 under the family of ISO9000, a series of international standards on quality management and quality assurance developed by the International Organization for Standardization, for the quality control of the Group's production; (ii) maintaining and implementing a sound network system to avoid computer viruses or other system malfunctions; and (iii) maintaining a team of staff for product development. The Group has been maintaining product liability insurance for most types of the Group's products against possible claims relating to personal injury or property damage arising from the use of the products manufactured by the Group.

Corporate Governance Report

INTERNAL AUDIT

The internal audit department's other responsibilities include:

1. reviewing the work-flow and the implementation status of the Group's policies and procedures of all functional departments;
2. reviewing the compliance status on rules and regulations that are applicable to the Group;
3. reviewing those areas of concern identified by the Audit Committee or the management of the Company;
4. reporting significant issues related to the processes for controlling the activities of the Group, including potential improvements to those processes and providing information concerning such issues to the Audit Committee of the Company;
5. issuing periodic reports to the Audit Committee and the Board summarising the results of audit activities and substantive follow-up of audit recommendations; and
6. investigating suspected fraudulent activities within the Group.

The internal audit department carries out annual risk assessment on each identified audit area and devises an annual audit plan according to the nature of business and risk exposures of the Group, and the scope of work includes strategic, financial, operational and compliance reviews. The audit plan is reviewed and approved by the Audit Committee.

RISK MANAGEMENT

The Board recognises risk management as one of the key elements to the success of the Company. The Group takes a pragmatic approach to manage different risks to align with its business development strategically. The management identifies potential risks, assesses their impact and likelihood and develops appropriate action plans to mitigate risks to a level that the Company is willing to take in achieving the Company's objectives on a regular basis. The Group will continue to enhance the risk management practices and internal control system and adopt a stringent governance framework with reference to the best practices in the market.

The Group's business, financial position and results may be affected by certain risks and uncertainties. Foreign currency risk, interest rate risk, liquidity risk and credit risk are the main inherent risks which may cause the Group's financial condition or results differing materially from expected or historical results.

Foreign currency risk

The Group's reporting currency is Hong Kong dollars but most of the business transactions are denominated in other currencies including United States dollars and Renminbi. The Group may enter into forward currency contracts to hedge against the currency risks arising from the Group's operations and its funding sources, with reference to cash flow forecasts, capital expenditure commitments and business budget. The Group does not speculate on foreign currencies.

Interest rate risk

The Group's exposure to the risk of changes in interest rates is mainly attributable to the bank loan obligations with floating interest rates. The Group has adequate internal control procedures to monitor the financial position exposures arising from fluctuation in the market interest rate for funding sources denominated in Hong Kong dollars and United States dollars.

RISK MANAGEMENT (Continued)

Liquidity risk

The objective of liquidity risk management is to ensure the adequacy of the Group's funds to meet the daily business operations, capital commitments and bank loans repayment. The Group monitors its liquidity position on a daily basis as the Group's treasurer reviews the cashflow positions in different geographical areas and adjusts financing requirement.

Credit risk

Credit risk arises from the possibility that the customers are unwilling or unable to fulfill their obligations which then incurs financial losses to the Group. The Group's credit control function manages the credit risks by assessing the credit limits and credit terms to be granted to customers and setting up the internal control system of credit approvals and other monitoring procedures to recover overdue debts, if any.

INTERNAL CONTROL

The Board has overall responsibility for maintaining sound and effective internal control and risk management systems within the Group and reviewing their effectiveness, particularly in respect of financial, operational, and compliance controls, and setting appropriate policies so that the objectives of the Group can be effectively and efficiently achieved and the associated risks can be identified, managed and mitigated at an acceptable level.

Appropriate policies and procedures are provided to the staff to take all measures that can (i) safeguard assets against unauthorised use or disposition; (ii) keep proper and accurate accounting records and enhance the reliability of financial reporting; and (iii) ensure efficiency and effectiveness of operations and compliance with applicable laws and regulations. The design of the internal control and risk management systems is to provide reasonable, but not absolute, assurance against material misstatement or loss, and to manage and minimise the risk of failure in the Group's operational systems.

The Group's internal control and risk management frameworks include the following major components:

1. an organisation structure with defined responsibility, proper segregation of duties and appropriately delegated authority;
2. policies and procedures relating to financial control, internal control and risk management that can identify, assess, measure and control risks effectively and efficiently;
3. operational and financial budgeting and forecasting systems which facilitate performance measurement, including regular budgeting analysis;
4. clear rules and guidelines which empower the review and approval of major capital and current expenditures;
5. strict internal procedures and controls enabling the handling and dissemination of inside information; and
6. developing a whistleblowing policy that encourages employees to report any incidents of fraud, corruption, theft or misconduct in confidence and a fearless working environment.

The internal audit department evaluates the overall adequacy and effectiveness of the Group's internal control and risk management systems. Identified deficiencies are from time to time reported to the Audit Committee and recommendations are made to the Board and the management of the Company.

Corporate Governance Report

MANAGEMENT FUNCTIONS

The Board has delegated aspects of its management and administration functions to the management. The management should report back and obtain prior approval from the Board before making decisions or entering into any agreements or arrangements to discharge its functions. The Directors clearly understand the Group's delegation arrangements in place. The key terms and conditions relative to the Directors' appointments have been set out in their service agreements and/or letters of appointments.

COMPANY SECRETARY

The company secretary is a full time employee of the Company and has day-to-day knowledge of the Company's affairs. The company secretary reports to the Chairman and the Managing Director. From time to time, the company secretary advises the Board on governance matters and ensures the board procedures, applicable law, rules and regulations are followed. During the financial year ended 31 March 2016, the company secretary has confirmed that she has taken no less than 15 hours of relevant professional training.

CONSTITUTIONAL DOCUMENTS

During the financial year ended 31 March 2016, there is no significant change in the Company's constitutional documents.

ENVIRONMENTAL PROTECTION

The Group is fully committed to environmental sustainability both for its products and its operations. The implementation of the European Union's Directives on Restriction of the use of the certain Hazardous Substances in Electrical and Electronic Equipment ("RoHS") in August 2005 in European Union members' states has impacted on the electrical and electronic Industry. Accordingly, the Group installed new equipments and established a comprehensive set of policies and procedures to ensure the Group's products completely satisfy RoHS requirements for the European Community and equivalent requirement for the rest of the world. The Group had also made it mandatory for all vendors and business partners to comply with the RoHS requirements.

In addition, the Group's production process has conformed to local environmental regulations. The Group is actively pursuing opportunities to directly contribute to environmental protection, and remains steadfast in its support of environmental protection, consistent with its commitment to be a good corporate citizen.

LOOKING FORWARD

The Group will keep on reviewing and improving its corporate governance standards from time to time and the Board will take necessary actions to ensure the compliance with the provisions of the CG Code introduced by the Stock Exchange.

TO THE SHAREHOLDERS OF KENFORD GROUP HOLDINGS LIMITED

(incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Kenford Group Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 36 to 80, which comprise the consolidated statement of financial position as at 31 March 2016, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants (the "HKICPA") and the applicable disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the HKICPA. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 March 2016, and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the applicable disclosure requirements of the Hong Kong Companies Ordinance.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”)

New and revised HKFRSs in issue but not yet effective

HKFRS 15 Revenue from contracts with customers

HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 (“Revenue”), HKAS 11 (“Construction Contracts”) and the related interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

Under HKFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

The directors of the Company anticipate that the application of HKFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect for the application of HKFRS 15 until a detailed review has been completed.

Except as disclosed above, the directors of the Company anticipate that the application of the other new and revised HKFRSs will have no material impact on the consolidated financial statements of the Group.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2016

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance ("CO").

The provisions of the new CO (Cap. 622) regarding preparation of accounts and directors' reports and audits became effective for the Group for the financial year ended 31 March 2016. The disclosure requirements set out in the Listing Rules regarding annual accounts have been amended with reference to the new CO and to streamline with HKFRSs and have become effective for the financial year ended 31 March 2016. Accordingly the presentation and disclosure of information in the consolidated financial statements for the financial year ended 31 March 2016 have been changed to comply with these new requirements. Comparative information in respect of the financial year ended 31 March 2015 are presented or disclosed in the consolidated financial statements based on the new requirements. Information previously required to be disclosed under the predecessor CO or Listing Rules but not under the new CO or amended Listing Rules are not disclosed in these consolidated financial statements.

The consolidated financial statements have been prepared on the historical cost basis except for leasehold land and buildings and investments held for trading, which are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies set out below. Historical cost is generally based on the fair value of the consideration given in exchange for goods.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. Fair value under HKFRS 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of HKFRS 2, leasing transactions that are within the scope of HKAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 or value in use in HKAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any, and is presented separately in the consolidated statement of financial position.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units, or groups of cash-generating units, that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually or more frequently whenever there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit, and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal.

Notes to the Consolidated Financial Statements

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts received or receivable for goods sold in the normal course of business, net of discounts and sales related taxes.

Revenue from the sale of goods is recognised when the goods are delivered and title has passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

Property, plant and equipment

Property, plant and equipment other than leasehold land and buildings and construction in progress are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Leasehold land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated statement of financial position at their revalued amounts, being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses, if any. Revaluations are performed with sufficient regularity such that the carrying amount does not differ materially from that which would be determined using fair values at the end of the reporting period.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment (Continued)

Any revaluation increase arising on the revaluation of leasehold land and buildings is recognised in other comprehensive income and accumulated in properties revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously expensed. A decrease in carrying amount arising on revaluation of such leasehold land and buildings is recognised in profit or loss to the extent that it exceeds the balance, if any, on the properties revaluation reserve relating to a previous revaluation of that asset. On the subsequent sale or retirement of a revalued asset, the attributable revaluation surplus is transferred to retained profits.

Depreciation is recognised so as to write off the cost or fair value of items of assets, other than construction in progress, over their estimated useful lives, using the straight-line method. The estimated useful lives and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Construction in progress is carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2016

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leasing (Continued)

Leasehold land and building

When a lease includes both leasehold land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating lease in which case the entire lease is classified as an operating lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the lease payments cannot be allocated reliably between the leasehold land and building elements, the entire lease is generally classified as a finance lease and accounted for as property, plant and equipment.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rate prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of "translation reserve".

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from “(loss) profit before taxation” as reported in the consolidated statement of profit or loss and other comprehensive income because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group’s liability for current tax is calculated using tax rates that have been enacted or substantially enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profits. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary differences arise from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group is able to control the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amounts of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories comprise direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Costs of inventories are calculated using the weighted average cost. Net realisable value represents the estimated selling price for inventories less all estimated costs to completion and costs necessary to make the sale.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2016

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Provision

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

Retirement benefits costs

Payments to Mandatory Provident Fund Scheme (the "MPF Scheme") and state-managed retirement benefit scheme are recognised as an expense when employees have rendered service entitling them to the contributions.

Short-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets

The Group's financial assets include loans and receivables and financial assets at fair value through profit or loss ("FVTPL"). The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments, other than those financial assets classified as at FVTPL, of which interest income is included in net gain or losses.

Financial assets at FVTPL

Financial assets at FVTPL are financial assets held for trading.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near future; or
- on initial recognition, it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial assets at FVTPL are measured at fair value, with changes in fair value arising from remeasurement recognised directly in profit or loss in the period in which they arise. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial assets and is included in the "other income, gains and losses" line item in the consolidated statement of profit or loss and other comprehensive income. Fair value is determined in the manner described in note 6.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and bills receivables, deposits and other receivables, short-term bank deposit and bank balances) are carried at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment of financial assets below).

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments, observable changes in national or local economic conditions that correlate with default on receivables.

The amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

If, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity instruments in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premium or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Financial liabilities

Financial liabilities including trade payables, other payables and bank borrowings are subsequently measured at amortised cost, using the effective interest method.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

The Group derecognises a financial liability when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2016

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Share-based payment transactions

Share options granted to employees

The fair value of services received determined by reference to the fair value of share options granted at the grant date is expensed on a straight-line basis over the vesting period/recognised as an expense in full at the grant date when the share options granted vest immediately, with a corresponding increase in equity (share options reserve).

At the end of the reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates during the vesting period, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimates, with a corresponding adjustment to share options reserve.

When share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained profits.

Impairment losses on tangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or a cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Notes to the Consolidated Financial Statements

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Depreciation and revaluation of property, plant and equipment

The Group depreciates its property, plant and equipment on a straight-line basis over their estimated useful lives as set out in note 17 to the consolidated financial statements, commencing from the date the items of property, plant and equipment are put into their intended use. The estimated useful lives and the dates the items of property, plant and equipment are put into use reflect the directors' estimate of the periods that the Group intends to derive future economic benefits from the use of the property, plant and equipment. The Group assesses the residual value and useful lives of the property, plant and equipment on a regular basis and if the expectation differs from the original estimate, such difference will impact the depreciation charge in the year in which such estimate has been changed.

As described in note 17, leasehold land and buildings in Hong Kong and buildings in the People's Republic of China ("PRC") were revalued as at 31 March 2016 and 2015 based on direct comparison method determined by directors of the Company and depreciated replacement cost method determined by independent professional valuer respectively. Such valuations were based on certain assumptions, which are subject to uncertainty and may materially differ from the actual results. In making the estimation for direct comparison approach for leasehold land and buildings in Hong Kong, the Group's management considers information in relation to the current price in the market and uses assumptions that are mainly based on market conditions existing at the end of each reporting period. Where there are any changes in the assumptions on the market conditions in Hong Kong, the estimate of fair value of leasehold land and buildings may be affected. In making the estimation for depreciated replacement cost method for buildings in the PRC, the independent professional valuer considers information from the aggregate amount of the new replacement cost of the buildings and deductions may be made to allow for the age, condition, economic or functional obsolescence and environmental factor existing at the end of the reporting period. As at 31 March 2016, the carrying amounts of leasehold land and buildings in Hong Kong and buildings in the PRC are approximately HK\$51,100,000 and HK\$94,534,000 (2015: HK\$51,000,000 and HK\$101,809,000) respectively.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2016

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Allowance for inventories

Management of the Group reviews an aging analysis at the end of the reporting period and makes allowance for obsolete and slow moving inventory items identified that are no longer suitable for sale. Management estimates the net realisable value for inventories based primarily on the latest invoice prices and current market conditions, carries out an inventory review at the end of reporting period and makes allowance for inventories, as appropriate. If the market condition is to deteriorate, resulting in a lower net realisable value for inventories, additional allowance may be required.

Allowance for bad and doubtful debts

When there is objective evidence of impairment loss, management of the Group takes into consideration the estimation of future cash flows (details please refer to accounting policies in note 3) to determine allowance for trade receivables. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. Where the actual future cash flows are less than expected, a material impairment loss may arise. As at 31 March 2016, the carrying amount of the aggregate trade receivables is approximately HK\$115,599,000, net of allowance for bad and doubtful debts of approximately HK\$51,000 (2015: carrying amount of approximately HK\$116,897,000, net of allowance for bad and doubtful debts of approximately HK\$51,000).

5. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of the bank borrowings disclosed in note 26 net of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital, reserves and retained profits. The directors of the Company review the capital structure on a continuous basis. As part of this review, the directors consider the cost of capital and the risks associated with capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends and issuance of new shares as well as addition to new borrowings and repayment of existing borrowings.

6. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies

The Group's major financial instruments include investments held for trading, trade and bills receivables, deposits and other receivables, short-term bank deposit, bank balances, trade payables, other payables and bank borrowings. Details of the financial instruments are disclosed in the respective notes. The risks associated with these financial instruments include market risk (currency risk, interest rate risk and equity price risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

Several subsidiaries of the Company have foreign currency sales and purchases, which expose the Group to foreign currency risk. In addition, certain deposits and other receivables, short-term bank deposit, bank balances and cash, trade payables, other payables and bank borrowings are denominated in foreign currencies other than the functional currency of the respective group entities.

The Group currently does not have a foreign currency hedging policy. However, management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the reporting date exposing to currency risk are as follows:

	Assets		Liabilities	
	2016 HK\$'000	2015 HK\$'000	2016 HK\$'000	2015 HK\$'000
Renminbi ("RMB") against US\$	8,590	8,470	3,930	5,605

Sensitivity analysis

The following table details the Group's sensitivity to a 5% (2015: 5%) increase and decrease in the functional currency of each group entity against RMB and all other variables are held constant. 5% (2015: 5%) is the sensitivity rate used which represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding denominated monetary items and adjusts their translation at the year end for a 5% (2015: 5%) change in RMB. A positive number below indicates decrease in post-tax loss (2015: increase in post-tax profit) for the year where RMB strengthen 5% (2015: 5%) against the functional currency of each group entity. For a 5% (2015: 5%) weakening of RMB against the functional currency of each group entity, there would be an equal and opposite impact on the post-tax (loss) profit for the year and the balances below would be negative.

Sensitivity analysis (Continued)

	2016 HK\$'000	2015 HK\$'000
Decrease in post-tax loss (2015: increase in post-tax profit) for the year		
Impact of RMB against US\$	195	120

In management's opinion, the sensitivity analysis is unrepresentative of the inherent currency risk as the exposure at the end of the reporting period does not reflect the exposure during the year.

Interest rate risk

The Group's fair value interest rate risk relates primarily to the fixed rate bank deposits. The Group is also exposed to cash flow interest rate risk through the impact of rate changes on interest bearing financial assets and financial liabilities at variable rates, namely bank balances and variable rate bank borrowings, which mainly concentrate on the fluctuation of Hong Kong Interbank Offered Rate ("HIBOR").

The Group currently does not have interest rate hedging policy. However, management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

The directors of the Company consider the Group's exposure to interest rate risk of bank deposits and bank balances as a result of the change of market interest rate is insignificant and thus no sensitivity analysis is performed.

Sensitivity analysis

The sensitivity analysis below is determined based on the exposure to interest rates for the variable rate bank borrowings at the end of the reporting period. It is prepared assuming the amount of liability outstanding at the end of the reporting period is outstanding for the whole year. A 25 basis points (2015: 25 basis points) increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 25 basis points (2015: 25 basis points) higher/lower and all other variables were held constant, the Group's loss for the year would increase/decrease by approximately HK\$117,000 (2015: profit for the year would decrease/increase by approximately HK\$111,000). This is mainly attributable to the Group's exposure to interest rates on its variable rate bank borrowings.

In the management's opinion, the sensitivity analysis is unrepresentative of the interest rate risk as the exposure at the end of the reporting period does not reflect the exposure during the year.

6. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued)

Equity price risk

The Group is exposed to equity price risk through its investments held for trading. The Group's equity price risk is mainly concentrated on securities listed on the Stock Exchange. Management manages the exposure by maintaining a portfolio of equity investments with different risk profiles.

Sensitivity analysis

For sensitivity analysis purpose, the sensitivity rate is 15% in current year as a result of the volatile financial market. The sensitivity analysis below has been determined based on the exposure for equity price risks at the end of reporting period. If the prices of the respective equity instruments had been 15% higher/lower and all other variables were held constant, the Group's loss for the year ended 31 March 2016 would decrease/increase by approximately HK\$819,000 (2015: nil) as a result of the changes in fair value of investments held for trading.

In the management's opinion, the sensitivity analysis was unrepresentative of the inherent equity risk as the year end exposure did not reflect the exposure during the year.

Credit risk

The Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amounts of the respective recognised financial assets as stated in the consolidated statement of financial position at 31 March 2016 and 2015. In order to minimise the credit risk, management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group's concentration of credit risk by geographical locations is mainly in the PRC, which accounts for 44% (2015: 34%) of the total trade receivables as at 31 March 2016.

The Group has concentration of credit risk as 77% (2015: 66%) and 95% (2015: 94%) of the total trade receivables are due from the Group's largest customer and the five largest customers respectively.

The Group's bank balances and bank deposits are deposited with banks of high credit rating and the Group has limited exposure to any single financial institution.

Other than the concentration of credit risk on bank balances, bank deposits and trade receivables, the Group has no other significant concentration of credit risk.

Financial risk management objectives and policies (Continued)

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. Management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The Group relies on bank borrowings as a significant source of liquidity. As at 31 March 2016, the Group has available unutilised overdraft and short-term bank loan facilities of approximately HK\$113,402,000 (2015: HK\$105,924,000). At 31 March 2016 and 2015, all the undrawn banking facilities are in floating rate without specific expiry terms. Details of the Group's bank borrowings at 31 March 2016 and 2015 are set out in note 26.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

		44,476	86,646	131,122	131,122

Bank borrowings with a repayment on demand clause are included in the “on demand” time band in the above maturity analysis. Taking into account the Group’s financial position, the directors do not believe that it is probable that the counterparties will exercise their discretionary rights to demand immediate repayment and believe that such bank borrowings will be repaid in accordance with the scheduled repayment dates set out in the loan agreements. At 31 March 2016, the directors consider that the aggregate undiscounted principal and interest cash outflows of these bank borrowings is HK\$47,303,000 (2015: HK\$44,754,000) under the time band of “less than 1 year”.

Fair value measurements of financial instruments

Fair value of the Group’s financial assets that are measured at fair value on a recurring basis

The Group’s investments held for trading are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and inputs used), as well as the level of the fair value hierarchy into which the fair value measurements are categorised (levels 1 to 3) based on the degree to which the inputs to the fair value measurements is observable.

Financial assets	Fair value as at		Fair value hierarchy	Valuation technique(s) and key input(s)
	31 March 2016 HK\$'000	31 March 2015 HK\$'000		
Investments held for trading	5,458	–	Level 1	Quoted bid prices in an active market

As at 31 March 2016, the Group’s investments held for trading are measured at Level 1. There are no transfers between level 1 and 2 for both years.

The directors consider that the carrying amounts of other financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.

Deferred tax:		
Current year (note 27)	(450)	1,865
	1,012	1,891

Under the Law of the PRC on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25%. No PRC Enterprise Income Tax was provided for the year ended 31 March 2015 in the consolidated financial statements as the subsidiaries of the Group operating in the PRC are either suffering from tax losses for the year, or the assessable profits are wholly absorbed by tax losses brought forward.

Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both years. No Hong Kong Profits Tax has been provided in the consolidated financial statements as the subsidiaries of the Group operating in Hong Kong are either suffering from tax losses, or the assessable profits are wholly absorbed by tax losses brought forwards for both years.

The taxation for the year can be reconciled to the (loss) profit before taxation per the consolidated statement of profit or loss and other comprehensive income as follows:

	2016 HK\$'000	2015 HK\$'000
(Loss) profit before taxation	(21,525)	2,684
Taxation at the Enterprise Income Tax rate of 25% (2015: 25%)	(5,381)	671

Total	288	12,738	36	13,062

Notes:

(a) The performance related incentive payments are determined having regard to the performance of individuals.

Mr. Lam Wai Ming is also the Chief Executive Officer of the Company and his emoluments disclosed above include those for services rendered by him as the Chief Executive.

The executive directors' emoluments shown above were mainly paid or payable for their services in connection with the management of the affairs of the Company and the Group. The independent non-executive directors' emoluments shown above were mainly paid or payable for their services as directors of the Company.

During both years, no emoluments are paid by the Group to the directors as compensation for loss of office or an inducement to join or upon joining the Group. None of the directors has waived or agreed to waive any emoluments in both years.

Notes to the Consolidated Financial Statements

For the year ended 31 March 2016

14. EMPLOYEE'S EMOLUMENTS

During the year ended 31 March 2016, of the five individuals with the highest emoluments in the Group, two (2015: two) are directors of the Company whose emoluments are included in the disclosures in note 13 above.

The emoluments of the remaining three (2015: three) individuals are as follows:

	2016 HK\$'000	2015 HK\$'000
Salaries, allowances and other benefits	4,040	4,050
Contributions to retirement benefits schemes	54	53
	4,094	4,103

Their emoluments are within the band HK\$1,000,001 – HK\$1,500,000.

During both years, no emolument was paid by the Group to any of the five highest paid individuals (including directors and employees) as an inducement to join or upon joining the Group or as compensation for loss of office.

15. DIVIDENDS

No dividend was paid or proposed during the year ended 31 March 2016, nor has any dividend been proposed since the end of the reporting period (2015: nil).

16. (LOSS) EARNINGS PER SHARE

The calculation of the basic and diluted (loss) earnings per share attributable to owners of the Company is based on the following data:

	2016 HK\$'000	2015 HK\$'000
(Loss) profit for the purpose of basic and diluted (loss) earnings per share ((Loss) profit for the year attributable to owners of the Company)	(22,537)	793

Number of shares

	'000	'000
Number of ordinary shares for the purpose of basic (loss) earnings per share	444,636	438,926
Effect of dilutive potential ordinary shares – share options	561	220
Number of ordinary shares for the purpose of diluted (loss) earnings per share	445,197	439,146

The computation of diluted earnings per share did not assume the exercise of certain of the Company's share options because the exercise price of those options was higher than the average market price for shares for the year ended 31 March 2015.

17. PROPERTY, PLANT AND EQUIPMENT (Continued)

The above items of property, plant and equipment, other than construction in progress, are depreciated on a straight-line basis at the following rates per annum:

Leasehold land and buildings in Hong Kong	Over the unexpired lease terms
Buildings in the PRC	The shorter of the lease terms of the land use rights on which the buildings are located or 50 years
Leasehold improvements	The shorter of the lease terms or 5 years
Plant and machinery	10%
Furniture, fixtures and office equipment	20%
Motor vehicles	20%
Moulds	20%

The Group's interests in leasehold land and buildings that are situated in Hong Kong and the PRC.

As at 31 March 2016, for the purposes of impairment testing, the carrying amount of property, plant and equipment has been allocated to individual cash generating units ("CGUs") relating to production and sales of products to PRC customers ("Unit A") amounting to HK\$125,069,000 (2015: HK\$136,492,000), production and sales of products to customers outside PRC ("Unit B") amounting to HK\$61,101,000 (2015: HK\$57,705,000) and marketing of hair products ("Unit C") amounting to nil (2015: HK\$780,000).

Based on the existing financial performance of Unit A and the management's expectation for the market development, the directors of the Company concluded there was no indication of an impairment loss is present for the property, plant and equipment in Unit A for both years.

For the year ended 31 March 2016, the management reviews the recoverable amount of Unit B and compares with its carrying amount for the purpose of impairment test. Based on the assessments, the management determined that the recoverable amount, which is the higher of fair value less cost of disposal and value in use, of the plant and equipment of Unit B is minimal. As a result, full impairment is recognised on the plant and equipment of Unit B amounting to HK\$10,001,000. As for the leasehold land and building being occupied by Unit B amounting to HK\$51,100,000, it is carried at fair value as set out below. The management believes the cost on disposal of such property will be insignificant and no impairment is recognised on the property under Unit B.

For the year ended 31 March 2015, the directors of the Company conducted an impairment assessment of the assets that were belonged to this generating unit based on their recoverable amounts in view of the recurring loss of the Unit C. Taking into account both value in use projection for the operation of hairstyle flagship shop and the fair value less cost of disposal for the relevant property, plant and equipment, the directors had determined to fully impair the relevant leasehold improvements and furniture and fixtures, and accordingly, impairment loss of HK\$780,000 was made during the year ended 31 March 2015.

17. PROPERTY, PLANT AND EQUIPMENT (Continued)

Fair value measurement of the Group's leasehold land and buildings

At 31 March 2016 and 2015, the fair value of the Group's leasehold land and building in Hong Kong was valued by the directors using direct comparison method. The buildings in the PRC were valued on 31 March 2016 and 2015 by qualified valuers from an independent firm not connected to the Group, LCH (Asia-Pacific) Surveyors Limited, Chartered Surveyors, using depreciated replacement cost method.

The fair value of the leasehold land and building located in Hong Kong has been determined based on the direct comparison method that reflects recent transaction prices for similar properties, adjusted for differences in the location and conditions of the properties under review.

In determining the fair value of the buildings located in the PRC, at the end of each reporting period, the chief financial officer ("CFO") works closely with the independent qualified professional valuers to establish and determine the appropriate valuation techniques and inputs to be used in determining the fair value of the properties. Discussion of valuation processes and results is held between CFO and the directors of the Company at least once a year.

The fair value of the buildings located in the PRC has been determined using the depreciated replacement cost method that reflects the cost to a market participant to construct assets of comparable utility and age, adjusted for obsolescence. There has been no change to the valuation technique during the year.

In estimating the fair value of the properties, the highest and best use of the properties is their current use.

The Group's leasehold land and buildings at revalued amount are categorised into level 3 of the fair value hierarchy.

17. PROPERTY, PLANT AND EQUIPMENT (Continued)

Fair value measurement of the Group's leasehold land and buildings (Continued)

The following table shows the valuation techniques used in the determination of fair values and unobservable inputs used in the valuation models.

Description	Fair value		Valuation techniques	Unobservable inputs	Significant inputs	Relationship of unobservable inputs to fair value
	2016 HK\$'000	2015 HK\$'000				
Leasehold land and building in Hong Kong	51,100	51,000	Direct comparison method	Market price per square feet	Adjusted price of HK\$2,654 (2015: HK\$2,648) per square feet in average	The higher the market price, the higher the fair value
Buildings in the PRC	94,534	101,809	Depreciated replacement cost method	Replacement cost per square meter	RMB1,990 to RMB2,040 (2015: RMB1,940 to RMB1,990) per square meter	The higher the replacement cost, the higher the fair value
				Discount factor	68% (2015: 69%) for buildings acquired in 1999 87% (2015: 89%) for buildings acquired in 2009	The higher the discount factor, the higher the fair value
	145,634	152,809				

There were no transfers into or out of Level 3 during the year.

Had the leasehold land and building in Hong Kong and buildings in the PRC been carried at cost less accumulated depreciation and accumulated impairment losses, their carrying values would have been HK\$8,721,000 and HK\$49,774,000 (2015: HK\$9,003,000 and HK\$53,622,000) respectively.

19. GOODWILL

HK\$'000

CARRYING AMOUNT

At 1 April 2014, 31 March 2015 and 31 March 2016

1,403

The amount represents goodwill arising on the acquisition of interests in Kario Company Limited ("Kario HK") and its subsidiaries (collectively referred to as the "Kario Group").

Goodwill has been allocated to a single cash generating unit, Kario Group. The recoverable amount has been determined based on a value in use calculation. The calculation applies cash flow projections based on financial budgets approved by management covering a 5-year period, and at a discount rate of 10.3% (2015: 10.3%) per annum. Cash flows for the first financial period is based on expected sales orders estimated by management. Cash flows for the second to the fifth financial periods are extrapolated using the average steady growth rate of 5% (2015: 5%). Budgeted gross margin is determined based on the unit's past performance and management's expectations for the market development. Management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount to exceed the aggregate recoverable amount and therefore no impairment loss is necessary.

121 – 365 days	1,598	3,640
Over 365 days	153	128
	117,765	117,177

The credit terms normally granted by the Group range from 14 days to 90 days. For those major customers, a credit term up to 120 days from the invoice date would be allowed.

Before accepting any new customers, the Group assesses the potential customer's credit quality by reference to their historical settlement record and defines credit limits by customers on geographical basis. Recoverability and credit limit of the existing customers are reviewed by the Group regularly. Included in the Group's trade and bills receivables balance is receivables with aggregate carrying amount of HK\$95,464,000 and (2015: HK\$104,117,000) which are neither past due nor impaired as the directors consider these amounts are of good credit quality and there are continuous subsequent settlements from customers.

Included in the Group's trade and bills receivables balance is debtors with aggregate carrying amount of HK\$22,301,000 (2015: HK\$13,060,000) which are past due at the end of the reporting period but for which the Group has not provided for impairment loss. The directors consider that these receivables are of good credit quality and there are continuous subsequent settlements from these customers. The Group does not hold any collateral over these balances.

Under the PRC law, withholding tax is imposed on dividends declared to non-residents in respect of profits earned by subsidiaries in the PRC from 1 January 2008 onwards. Deferred tax liabilities have not been provided for in the consolidated financial statements in respect of the temporary differences attributable to the profits earned by subsidiaries in the PRC amounting to HK\$99,320,000 (2015: HK\$89,836,000) as the Group is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

At the end of the reporting period, the Group has unused tax losses of HK\$50,525,000 (2015: HK\$30,352,000) available for offset against future profits. A deferred tax asset has been recognised in respect of HK\$10,891,000 (2015: HK\$5,396,000) of such losses. No deferred tax asset has been recognised in respect of the remaining HK\$39,634,000 (2015: HK\$24,956,000) due to unpredictability of future profit streams. Included in unused tax losses are losses of HK\$23,625,000 (2015: HK\$11,240,000) that will expire in 2020 (2015: 2019). All other tax losses may be carried forward indefinitely.

29. SHARE-BASED PAYMENTS

Equity-settled share option scheme

The Company's share option scheme ("Share Option Scheme") was adopted pursuant to a resolution passed on 27 May 2005 for the primary purpose of providing incentives to directors and eligible employees, and will remain in force for a period of ten years. The Share Option Scheme was expired on 26 May 2015. A new share option scheme (the "New Share Option Scheme") was adopted pursuant to a resolution passed on 6 August 2015 for the primary purpose of providing incentives to directors and eligible employees, and will remain in force for a period of ten years.

Share Option Scheme

Under the Share Option Scheme, the Board of Directors (the "Board") may, at its absolute discretion, offer to grant options to any employee, executive and officer of the Group, any director (including non-executive director and independent non-executive director) and any adviser, consultant, supplier, customer and/or agent of the Group whom the Board considered have contributed or will contribute to the Group.

The total number of shares in respect of which options may be granted under the Share Option Scheme is not permitted to exceed 10% of the nominal amount of all issued shares as at 16 June 2005, without prior approval from the Company's shareholders. The number of shares issued and to be issued in respect of which options granted and may be granted to any individual in any one year is not permitted to exceed 1% of the shares of the Company in issue at any point in time, without prior approval from the Company's shareholders.

Options granted were exercisable from 22 February 2011 to 26 May 2015 (both days inclusive). The exercise price is determined by the directors of the Company, and will not be less than the higher of (i) the closing price of the Company's shares on the date of grant, (ii) the average closing price of the shares for the five business days immediately preceding the date of grant; and (iii) the nominal value of the Company's share.

Notes to the Consolidated Financial Statements
